ABOUT ME

Creative Graphic Designer with a BSc (Hons) Software Engineering background, bridging the gap between technical logic and visual design. Proficient in Adobe Photoshop, Figma, and Canva, with experience in brand identity and social media graphics. A collaborative designer eager to contribute high-quality visual assets and innovative ideas to the team.

EDUCATION

BSc (Hons) Software Engineering | 2023 - 2027 (Expected)

CINEC Campus, Malabe

G.C.E. Advanced Level - Physical Science Stream | 2021(2022)

Swarnapali Balika Girls' Convent Anuradapura

Results: 3 Simple Passes

SKILLS

Design Software

- Adobe Photoshop
- Canva
- Figma

Design Skills

- Branding & Identity
- Typography
- Color Theory
- Layout Design
- Social Media Graphics

Soft Skills

- Creative Thinking
 - Problem Solving
 - Communication
 - Team Collaboration
 - Time management
-

PROJECTS

1.Event Branding & Social Media Design

Role: Graphic Design Coordinator

Description: Designed a comprehensive series of promotional flyers and visual assets for the "Sihina Yathra" project using Adobe Photoshop. Managed the visual consistency across social media platforms to enhance event visibility.

2.Online Student Services Portal

Role: UI/UX Designer

Description: I redesigned a university student portal that had 5 main problems: confusing navigation, no feedback, wrong submissions, issues for visually impaired users, and poor mobile experience. I used Norman's principles to evaluate the portal. I created wireframes for 4 screens (Home Dashboard, Module Page, Assignment Page, and Mobile View) using Figma. I also designed high-fidelity UI with large fonts, high contrast, icons with labels, and touch-friendly buttons.

I proposed a 6-step User-Centered Design process. My portal solves all 5 problems with clear navigation, feedback messages, file requirements shown upfront, large fonts, and large touch targets. This project shows my skills in HCI principles, accessibility, mobile design, and Figma.
