nethmacharunu@gmail.com | +94 701657269 | No 168/8 Thalahena, Malabe | [charuni.linkedin](#)

ABOUT ME

Detail-oriented Front-End Developer with a **BSc (Hons) Software Engineering** background and **UI/UX design** foundation. Skilled in **HTML, CSS, JavaScript, React.js basics, Figma, and Canva**. Experienced in building responsive web interfaces from wireframes to functional prototypes. Passionate about clean code and seamless user experiences. Seeking an entry-level Front-End Developer role or internship.

EDUCATION

BSc (Hons) Software Engineering | 2023 - 2027 (Expected)

CINEC Campus, Malabe

G.C.E. Advanced Level - Physical Science Stream | 2021(2022)

Swarnapali Balika Girls' Convent Anuradapura

Results: 3 Simple Passes

SKILLS

- Programming Languages:
C, C++, Java, JavaScript, PHP
 - Database:
MySQL, MongoDB
 - Front-end Technologies:
React.js, HTML, CSS
 - Version Control:
Git
 - UI/UX:
Figma, Canva
 - Productivity Tools:
Microsoft Word, Excel, PowerPoint
 - Software Engineering & Project Fundamentals:
Software Development Life Cycle (SDLC)
Requirement Gathering & Documentation
Basic Project Management Concepts
Analytical & Problem-Solving Skills
-

PROJECTS

1. Melody Masters – Full Stack E-Commerce Web Application

GitHub Repo: <https://nethma.melody>

Description:

Developed a full-stack e-commerce web application for selling musical instruments and digital products with role-based access for Admin, Staff, and Customers.

Key Features:

User authentication, product browsing, shopping cart and checkout system, order tracking, verified purchase reviews, secure digital downloads, and admin/staff dashboards for product and order management.

Technical Implementation:

Built using PHP, MySQL, HTML, CSS, and Font Awesome with role-based authentication, dynamic order status updates, conditional free shipping logic, and responsive UI design.

Challenges Solved:

Implemented secure digital download limits, verified purchase review validation, and role-based dashboards for efficient system management.

2. Karushan Travels – Driver & Fleet Management System | Group Project | In Development

Description:

- *Built a full-stack Driver Management System with Next.js Admin Dashboard and Flutter Driver Mobile App.*
- *Integrated Mapbox API for live vehicle tracking, 3D attraction markers, and route visualization.*
- *Used Firebase Firestore (NoSQL) for real-time data sync and Express.js for backend REST APIs with Firebase Admin SDK.*
- *Implemented WebSocket for real-time location updates (30-second intervals).*
- *Connected to a Random Forest AI model for fuel consumption prediction and driver optimization.*
- *Tech Stack: Next.js, Flutter, Express.js, Firebase, Mapbox, REST APIs*

WORK EXPERIENCE

Public Visibility - Sub Committee Leader | 2026

IEEE CINEC Student Branch

Graphic Design Coordinator | 2026

CINEC Student Media Circle
